**SUBJECT:** COMAR 13A.04.15 Digital Learning and Maryland Public Education (New)  
PERMISSION TO PUBLISH

---

**PURPOSE:**

The purpose of this item is to request publication of a new regulation at 13A.04.15 Digital Learning. This regulation replaces the emergency regulation passed by the Board on June 26, 2012.

**HISTORICAL BACKGROUND:**

The goal of the Maryland digital learning program is to provide additional course opportunities for students. Prior to 2009, MSDE was able to pay for reviews of potential online courses for Maryland students through funding sources that are no longer available. Until passage of Senate Bill 674, MSDE was the only entity that could review and evaluate online courses. This review process proved to be costly and time consuming. Although attempts were made to recruit voluntary reviewers for online courses, MSDE was unsuccessful in securing educators who were willing to work on a volunteer basis.

During this past General Assembly session, Senate Bill 674 was passed authorizing the State Board of Education to set reasonable vendor fees to cover the costs incurred by the Department for the review and approval of each online course. This bill also allows county boards to set and charge vendor fees to review and evaluate online courses according to the standards established by MSDE.

**EXECUTIVE SUMMARY:**

To make the review and evaluation of online courses fair and comprehensive, review and approval processes and procedures, as well as fee structures, need to be expressed in regulatory language. There are a variety of elements required to ensure effective reviews. A review committee needs to consist of an odd number of members who each have content expertise in the course being reviewed. In addition, one of the three reviewers needs to be trained in the evaluation process. This trained participant will be able to train the remaining committee members. With a new fee structure, committee members would be reimbursed for their content expertise and for the time required to review and evaluate a vendor course. We are recommending a vendor fee of \$1,400.00 not only to support the Department review and evaluation, but also to enable the Department to provide ongoing professional development opportunities that build educator capacity to review courses throughout the state.

**ACTION:**

We are requesting approval for the vendor fee structure that will support the work of educators who will review online courses that satisfy requirements for Maryland public high schools and the standards by which the county boards follow to evaluate online courses for approval on the MSDE Master List.
