SUBJECT: COMAR 13A.13.01 Provision of Early Intervention Services to Infants and Toddlers and Their Families (REPEAL & REPLACE)
COMAR 13A.13.02 Administration of Services for Infants and Toddlers and Their Families (NEW)
PERMISSION TO PUBLISH

PURPOSE:

The purpose of this action is to request permission to repeal and replace 13A.13.01, Provision of Early Intervention Services to Infants and Toddlers and Their Families, and create a new chapter 13A.13.02, Administration of Services for Infants and Toddlers and Their Families.

HISTORICAL BACKGROUND:

The Individuals with Disabilities Education Act (IDEA) was enacted on December 3, 2004. The U. S. Department of Education, Office of Special Education Programs (OSEP) released final regulations for the Early Intervention Programs under Part C of the IDEA on September 28, 2011. The IDEA requires states to review and revise existing State statutes, regulations, policies, and procedures to the extent necessary to ensure state policies and procedures are in compliance with federal statute. The State is out of compliance with federal law and will remain in that condition until revised regulations are enacted. The attached proposed regulations update current State regulations to reflect the provisions of the new federal regulations that are straightforward and not susceptible to conflicting interpretations.

To identify how State regulations need to be amended to comply with the IDEA Part C, the Division of Special Education/Early Intervention Services (DSE/EIS) engaged stakeholders in various activities to seek input. The Division of Special Education/Early Intervention Services conducted three webinars for directors of the Local Infants and Toddlers Programs. Next, the DSE/EIS brought together a group of stakeholders, including representatives of local school systems, public agencies, and parents to review current regulations against the requirements of the IDEA Part C. Please refer to Attachment I for a list of the Part C Regulations Stakeholder Workgroup. From February through May 2012, the Part C

Members of the Maryland State Board of Education

Regulations Stakeholder Workgroup met four times to review regulations and to advise the DSE/EIS on the proposal. The State Interagency Coordinating Council (SICC) has also advised the DSE/EIS on proposed regulations. On May 31, 2012, the DSE/EIS also conducted an electronic survey to seek input from parents, families, early intervention service providers, and directors of the Local Infants and Toddlers Programs.

The General Education Provisions Act (GEPA) requires the Maryland State Department of Education to make proposed regulations available for public review for 60 days and to accept written public comment for at least 30 days during the 60 days. After publication in the Maryland Register, personnel within the DSE/EIS will conduct five regional public hearings to solicit additional public input on the proposals. Please refer to Attachment II that outlines the steps the DSE/EIS have taken and will continue to seek input for regulatory amendments.

EXECUTIVE SUMMARY:

The proposed revised COMAR 13A.13.01(Attachment III) and the proposed new COMAR 13A.13.02 (Attachment IV) will make State regulations consistent with federal regulations and clarify the responsibilities of local school systems and public agencies regarding the federal requirements to administer early intervention services to infants and toddlers and their families in accordance with federal regulations.

ACTION:

I am requesting permission to publish proposed COMAR 13A.13.01 and 13A.13.02. The tentative timeline is as follows:
