Table 3.a Achieving Equity in Teacher Distribution

Summary: To enable State officials, parents, the Department of Education, local educators and other key stakeholders to measure States' progress towards improving teacher effectiveness and achieving equity in the distribution of teachers and principals, States will need to collect, publish, and analyze basic information about how districts evaluate teacher and principal effectiveness and distribute their highly qualified and effective teachers among schools. The objective is to highlight inequities that result in low-income and minority students being taught by inexperienced, unqualified, out-of-field or ineffective teachers at higher rates than other students. Similarly, because principals play a critical role in teaching and learning, it is important to highlight inequities that result in low-income and minority students being taught in schools overseen by ineffective principals at higher rates than other students.

Citation	Description	Rationale
Descriptor	Describe, for each local education	Teacher evaluation systems typically reflect a holistic view of
		teacher performance, and as such are an important information source for assessing the distribution of effective teachers.

Directions:

Please include the following information on the local school system's designated website reporting the evaluation systems of teachers.

Teacher Evaluation Systems:

The description of the teacher evaluation system must explain how evaluation results are used in decisions regarding each of the following: teacher professional development, compensation, promotion, retention and removal.

At this time the evaluation form is used as follows: <u>Development</u> - if evaluation is less than satisfactory, teacher assistance in areas of need is given to the teacher. This may include one-on-one help, teacher visits to other schools, mentor help or assignment of a mentor.

<u>Compensation</u> - if, because of less than satisfactory evaluation, teacher is placed on a second class certificate. COLA is withheld from teacher. <u>Promotion</u> - used as part of final decision

class certificate. COLA is withheld from teacher. <u>Promotion</u> - used as part of final decision making in promotion process. <u>Retention</u> - if satisfactory, teacher is afforded continued employment. <u>Removal</u> - less than satisfactory evaluation in first two years may be grounds for termination. Tenured teacher's evaluation less than satisfactory for determined time may be grounds for removal.

Table 3.a Achieving Equity in Teacher Distribution

Citation Description	Rationale
----------------------	-----------

Indicator (a)(3)	Indicate, for each LEA in the State, whether the systems used to evaluate the performance of teachers include student achievement outcomes or student growth as an evaluation criterion.	Evaluation systems that include student achievement outcomes yield reliable assessments of teacher performance. Knowing if an evaluation system includes these outcomes informs the value of teacher performance ratings.
<u>Directions</u> :	Yes, the systems used achievement outcomes or student If Yes, please respond (check one): Student achievem Student growth is X No, the systems used	to evaluate the performance of teachers include student growth as an evaluation criterion. The ent outcomes are included as an evaluation criterion. The ent outcomes are included as an evaluation criterion. The evaluate the performance of teachers do not include student growth as an evaluation criterion.
